We are unable to accept withdrawal amounts quoted in New Zealand dollars. Please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

Managing your investment

Distributions

If New Zealand investors elect to have their distribution directly credited, they will need to nominate an AUD bank account held in their own name and domiciled with an Australian or New Zealand bank, otherwise it will be reinvested. Cash distributions will be paid in Australian Dollars to such bank account.

When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the relevant PDS relating to the units in the relevant Fund. Please see the relevant PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the relevant PDS is offered to New Zealand investors on the following basis:

- at the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- the right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors holding units of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report of the Funds, the most recent financial statements of the Funds, the auditor's report on those financial statements, the relevant PDS and the Constitution for the Funds (including any amendments). Other than the Constitution, these documents may be obtained electronically from www.eqt.com.au/insto.

Processing cut-off times

The processing cut-off times for applications and withdrawals referred to in the PDS are Australian Eastern Standard Time (Australian EST) and you should take this into account when sending instructions.

Cooling off rights

Cooling off rights may apply to investors in New Zealand. If you wish to exercise your cooling off rights you should contact the Responsible Entity of the relevant Fund. The PDS contains further information about the rights that may apply.

Taxation

New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888. Today, Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed GQG Partners LLC as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

GQG Partners LLC ("GQG Partners")

GQG Partners is a boutique investment firm focused on long-only global, U.S. and emerging markets equity strategies. GQG Partners is a wholly owned subsidiary of GQG Partners Inc, a Delaware corporation that is listed on the Australian Securities Exchange (ASX:GQG). GQG Partners has been appointed for an initial term of 10 years, however its appointment may be terminated prior to the end of that term on a range of grounds, including if it breaches the investment management agreement and fails to remedy the breach. GQG Partners was launched in 2016 by prominent investor Rajiv Jain, former CIO and Co-CEO of Vontobel Asset Management, who brings over 25 years of equity investing experience to GQG Partners.

2. How the GQG Partners Emerging Markets Equity Fund - A Class works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund consists of multiple classes of units (each a "Class") each of which comprises assets which are acquired in accordance with the Fund's investment strategy. This PDS describes units in the GQG Partners Emerging Markets Equity Fund - A Class. Direct investors receive units in the Class when they invest. In general, units represent an equal interest in the assets of the Class subject to liabilities; however, it does not give investors an interest in any particular asset of the Class.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Class is \$5,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

GQG Partners Unit Registry
GPO Box 804
Melbourne VIC 3001
or sending it via email to
gqgpartners.transactions@unitregistry.com.au

Please note that cash cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's or Class's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Class, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%.

The Application Price will vary as the market value of assets in the Class rises or falls.

Making additional investments

You can make additional investments into the Class at any time by sending us your additional investment amount together with a completed Application Form. The minimum additional investment into the Class is \$1,000.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually as at 30 June, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Class can indicate a preference to have their distribution:

- reinvested back into the Class; or
- directly credited to their AUD Australian or New Zealand domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

If New Zealand investors elect to have their distribution directly credited they will need to nominate an Australian Dollar bank account held in their own name with an Australian or New Zealand domiciled bank, otherwise it must be reinvested (refer to the GQG Partners New Zealand Investor Information Sheet). Distributions will be paid in Australian Dollars.

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

GQG Partners Unit Registry
GPO Box 804
Melbourne VIC 3001
or sending it via email to
gqgpartners.transactions@unitregistry.com.au

The minimum withdrawal amount is \$1,000. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 4 Business Days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated AUD Australian or New Zealand domiciled bank account. However, Equity Trustees is allowed to reject withdrawal requests, and to make payment up to 21 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Class, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.25%.

The Withdrawal Price will vary as the market value of assets referable to the Class rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Class falls below \$5,000 as a result of processing your withdrawal request. We also reserve the right to fully withdraw an investor's investments in the Class, upon giving 30 days' notice, if the minimum balance amount is increased and your holding falls below the new minimum balance amount. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund or the Class including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the GQG Partners Emerging Markets Equity Fund - A Class

The Fund aims to seek long term capital appreciation by investing in equity securities or equity-linked instruments of companies located in emerging markets countries without regard to their capitalisation.

An investment in the Fund has certain benefits including:

- Your money is managed by a team of professionals at GQG Partners, who have extensive experience in investing in markets around the world;
- Access to investment opportunities, techniques and markets that may not be accessible to all investors;

- You can generally apply to withdraw your investment on any Business Day; and
- GQG Partners as with other fund managers can usually invest at a lower cost than individual investors.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund or the Class is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Individual investment risk

Individual investments made by the Fund will fluctuate in value, meaning that they may fall in value. A company's share price may fluctuate for a number of reasons. A company may undergo changes in its financial or operating circumstances and may also face broader influences such as political and industry changes.

Market, country and political risk

Economic, technological, political, legal and market conditions in countries in which the Fund has investments are variable, particularly in developing countries. Changes in these factors can have both positive and negative influences on the value of the Fund's investments. Political situations could develop where the government of a country stops or limits GQG Partners' ability to repatriate assets to Australia.

Concentration risk

The assets referable to the Fund may be concentrated in a smaller number of issuers than the relevant benchmark index, and thus may be more susceptible to negative events affecting those issuers than the relevant benchmark.

Interest rate risk

Changes in interest rates can also have a positive or negative impact directly or indirectly on investment values or returns. For example, hybrid securities, cash and other interest-bearing securities are very sensitive to fluctuations in interest rates.

Fund risk

Risk particular to the Fund includes the risk that it could be terminated, the fees and expenses could change, Equity Trustees could be replaced as responsible entity and GQG Partners could be replaced as investment manager, or its portfolio managers could change. If there is an interruption of regular trading in the market for an asset of the Fund, there may be delays in processing withdrawal requests. The laws affecting registered managed investment schemes may change in the future.

Liquidity risk

As the Fund will invest in securities listed on stock exchanges in various countries, if there is an interruption of regular trading of the market, or for a particular asset of the Fund, there may be delays in processing withdrawal requests. Similarly, for investments in securities where the volume of trading is low, the ability to liquidate those securities in a timely manner may be impacted.

Currency risk

Change in exchange rates between the Australian dollar and foreign currencies can have a positive or negative impact on the value of investments in international securities.

Derivatives risk

Derivatives risk includes the value of derivatives positions not moving in line with the movement in the underlying asset, potential illiquidity of a derivative, and the Fund being unable to meet payment obligations in relation to derivatives contracts.

P-Notes risk

P-Notes involve risks that are in addition to the risks normally associated with a direct investment in the underlying equity securities. P-Notes are generally unsecured contractual obligations that are subject to liquidity risk and a high degree of counterparty risk. P-notes are subject to counterparty risk since the notes constitute generally unsecured contractual obligations of the financial institutions issuing the notes, and the Fund is relying on the creditworthiness of such institutions and has no rights under the notes against the issuers of the underlying securities. While the holder of a P-Note is entitled to receive from the issuing bank or broker-dealer any dividends or other distributions paid on the underlying securities, the holder is not entitled to the same rights as an owner of the underlying securities, such as voting rights.

In addition, P-Notes are subject to liquidity risk. P-Notes are also not traded on exchanges, are privately issued, and may be illiquid. To the extent a P-Note is determined to be illiquid, it would be subject to the Fund's limitation on investments in illiquid securities. There can be no assurance that the trading price or value of a P-Note will equal the value of the underlying value of the equity securities they seek to replicate.

Counterparty risk

There is a risk that counterparties to some of the Fund's investments may not perform their obligations and that transactions may not settle.

Pandemic and other unforeseen event risk

Health crises, such as pandemic and epidemic diseases, as well as other catastrophes that interrupt the expected course of events, such as natural disasters, war or civil disturbance, acts of terrorism, power outages and other unforeseeable and external events, and the public response to or fear of such diseases or events, have and may in the future have an adverse effect on the economies and financial markets either in specific countries or worldwide and consequently on the value of the Fund's investments. Further, under such circumstances the operations, including functions such as trading and valuation, of the Investment Manager and other service providers could be reduced, delayed, suspended or otherwise disrupted.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund aims to seek long term capital appreciation by primarily investing directly or indirectly in equity securities and equity-linked securities of emerging markets countries that GQG Partners believes can sustain long term earnings growth and are available at a reasonable price. The objective of the Fund is to provide a rate of return (after fees and expenses and before taxes) which exceeds the return of the MSCI Emerging Markets ex Tobacco Index (AUD).

Benchmark

MSCI Emerging Markets ex Tobacco Index (AUD).

Strategic asset allocation

Equities: 90-100%

Cash & Cash Equivalents: 0-10%

It is anticipated that this Fund will typically hold between 40 and 80 investments. Generally, during normal market conditions, no single portfolio holding is anticipated to exceed 10% of the portfolio value.

Minimum suggested time frame

An investment horizon of at least five plus years

Risk level

High risk of short term loss.

The Fund aims to outperform the MSCI Emerging Markets ex Tobacco Index (AUD) for investments held over the minimum suggested timeframe.

Investor suitability

5 plus years

The Fund may suit investors with a minimum investment horizon of at least five years, whose investment objective is to achieve capital appreciation.

Investment style and approach

GQG Partners employs a disciplined investment process rooted in deeply held beliefs about investing. GQG Partners pursues a fundamental security selection process, conducting analyses of a company's financial statements, economic health, competitors and the markets that it serves. GQG Partners seeks to identify companies with a strong financial position, capable management, and promising growth opportunities, which GQG Partners believes are most likely to enjoy sustained earnings growth over time. GQG Partners combines an intensive focus on high quality companies with strong pricing discipline.

GQG Partners intends to focus on companies that it believes can sustain strong earnings growth over the long term and the securities of which are available at a reasonable price. Once fully invested, it is intended that the Fund will have invested in various countries and various industries, but the Fund is actively managed and is not constrained by any benchmark index. Despite broad diversification guidelines, GQG Partners believes in and manages portfolios that can seem relatively concentrated at times, such as in companies based in different countries whose stock price could be helped or hurt by a single event. As a result, the Fund's performance may be significantly affected by an individual holding or group of similarly-situated holdings.

During normal market conditions, cash will typically represent less than 10% of its assets, except as determined by the Investment Manager in circumstances involving unusual market movements or with respect to temporary deviations during subscriptions into or withdrawals from the Fund.

The Fund may use derivative securities including, without limitation, participation notes or participatory notes ("P-Notes") and/or Low Exercise Price Options ("LEPOs"), collectively known as "Synthetic Equities," where the use of such securities is consistent with the Fund's strategies. The Fund may use Synthetic Equities primarily to gain access to securities which may be otherwise inaccessible to foreign investors or too costly for direct access to the underlying securities, such as due to market registration issues. Some Synthetic Equities are instruments that attempt to replicate ownership of an underlying equity security in foreign stock markets where non-resident shareholders are unable to own shares directly or find it advantageous to own shares through this indirect vehicle. Synthetic Equities are created by financial intermediaries such as investment banks and commercial banks and these instruments typically represent an unsecured obligation of the financial intermediary. As such, a Synthetic Equity is a direct obligation of the counterparty, and the non-resident investor has no direct claim on the issuer of the underlying security. In conjunction with these possible investments, GQG Partners has established general counterparty risk monitoring procedures. The Fund generally may not vote on matters put before the shareholders of a company with respect to which the Fund holds Synthetic Equities.

GQG Partners' sell discipline leads it to sell companies when its view of their risks or opportunities fundamentally changes, or when it believes that the stock price no longer reflects a good value. GQG Partners will also sell companies when it finds alternatives that it views as being more attractive.

The Fund may invest in equity securities or equity-linked instruments of companies located anywhere in the world, including, but not limited to, emerging markets countries, frontier markets and the United States. This Fund has no limitation on the capitalization size of the companies in which it invests nor on its ability to invest in foreign securities. It may invest in any country. Frontier markets are not expected to be a meaningful percentage of the Fund.

The Fund employs a long-term focus when analysing companies and constructing a portfolio. GQG Partners seeks to identify companies with a strong financial position, capable management, and promising growth opportunities, which GQG Partners believes are most likely to enjoy sustained earnings growth over time.

GQG Partners' investment process includes:

Screening: GQG Partners pursues a bottom-up fundamental research process when evaluating potential portfolio companies. GQG Partners narrows the broad universe of approximately 50,000 global securities to a small pool of 300-450 investable companies by identifying those that have produced superior rates of returns and margins relative to their peers and are not excessively levered. GQG Partners' screens primarily consist of elimination first and ranking thereafter based on return on equity, leverage, margins and stability of returns and margins. GQG Partners does not employ valuation metrics in its screens. This avoidance of valuation means that that GQG Partners' screens tend to be more stable.

GQG Partners' screening process seeks to identify companies that:

- have produced superior rates of growth in revenues and earnings over the previous 3-5 year periods relative to industry and country;
- have generated superior rates of return on equity and on total capital;

- have done so without excessive use of leverage; and
- have lower volatility in margins and return on invested capital than similar companies.

Not every attribute is found in every issuer in whose securities the Fund may invest.

Research: GQG Partners analyses those companies' businesses and the industries in which they operate to seek to understand the reasons for their superior results and to seek to predict their ability to continue to generate them. GQG Partners' process results in a list of companies that GQG Partners believes have a demonstrable and sustainable competitive advantage.

Central to GQG Partners' analysis of any company is a focus on its ongoing, long-term growth potential, in the judgment of GQG Partners. GQG Partners' long-term focus affects its view of the company's appropriate valuation.

Portfolio Construction: GQG Partners believes its approach to diversification differs from most investment managers. In GQG Partners' view, risk exists in a company's business itself, not in categorizations of industries, sectors and geographic regions. Therefore, GQG Partners seeks to understand each portfolio company's sources of revenues and competitive risks. GQG Partners does not believe optimization engines can identify such risks. For each portfolio company, GQG Partners focuses on its diversification of revenue sources and end-client behaviours. As a result, the Fund's portfolio may feature high industry and country concentrations and demonstrate significant tracking error against benchmark indexes.

GQG Partners' portfolio construction is not dictated by the composition of benchmark indexes because GQG Partners seeks to identify and invest in those constituents of a benchmark whose business prospects GQG Partners believes are inherently superior to the benchmark as a whole.

Sell Discipline: The key tenets of GQG Partners' investment purchase discipline are consistency, predictability, profitability, sustainability and sensible price. GQG Partners continues to monitor those aspects of each company in the Fund's portfolio on an ongoing basis. Not all such aspects will be present in every investment or afforded in any particular weighting. Ordinarily, absent outside events such as market disruptions or significant withdrawal requests, the Fund will remain invested in a company unless:

- the market price exceeds GQG Partners' valuation estimate;
- there occurs a meaningful deterioration of the company's long term earnings growth prospects;
- the company is involved in a major acquisition; or
- the company is replaced by an investment GQG Partners sees as more attractive.

Of these reasons, under ordinary conditions, GQG Partners expects that the most common reason for a Fund to divest a company is to replace it with a company GQG Partners finds more attractive.

Labour Standards, Environmental, Social and Ethical Factors ("ESG considerations")

EQT has delegated the investment function (including ESG responsibilities to the extent described below) to the Investment Manager.

The Responsible Entity (at Fund level) and GQG Partners recognizes that environmental, social and governance ("ESG") factors can materially impact a company's valuation. In its pursuit of long-term capital appreciation on behalf of the Fund, GQG Partners may consider financially material ESG factors in its investment process. GQG Partners typically evaluates and may give meaningful weight to issues such as environmental responsibility, labour relations, corporate culture and the quality of corporate leadership in its assessment of a potential or existing portfolio company, although non-ESG related factors may outweigh any ESG considerations with respect to any particular investment decision, and, for timing or other reasons, investment decisions may be made before GQG Partners has completed a comprehensive evaluation of one or more ESG factors. This Fund will specifically exclude investments in companies that derive more than 25% of their revenue from tobacco related business activities. The Fund will also exclude investments in companies which generate greater than 25% of their revenue from the mining of Thermal Coal. In addition, no investments will be made in companies associated with the production of controversial weapons such as anti-personnel mines, cluster munitions, depleted uranium and biological or chemical weapons (i.e., companies screened out by the MSCI Ex-Controversial Weapons Index).

Fund performance

Up to date information on the performance of the Fund will be available on the Equity Trustees website at www.eqt.com.au/insto.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 0.96% p.a. of the NAV of the Class is payable for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Class monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees. The management fees shown above do not include extraordinary expenses (if they are incurred in the future), such as litigation costs and the costs of convening investor meetings.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests and the costs of investing in over-the-counter derivatives to gain investment exposure to assets or implement the Fund's and Class's investment strategy (if any). The indirect costs and other expenses component is variable and reflected in the unit price of the Class as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold, transactional related custody costs, and the costs of over-the-counter derivatives that reflect transaction costs that would arise if the Fund held the ultimate reference assets, as well as the costs of over-the-counter derivatives used for hedging purposes. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Class will incur when buying or selling assets of the Class. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Class and are not separately charged to the investor. The Buy Spread is paid into the Class as part of an application and the Sell Spread is left in the Class as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$5,000 is \$12.50 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Class's assets and are reflected in the Class's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Class are 0.23% p.a. of the NAV of the Class, which is based on the relevant costs incurred during the financial year ended 30 June 2025.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2% of the GAV of the Class. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Wholesale Clients. Please contact the Responsible Entity on +613 8623 5000 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – GQG Partners Emerging Markets Equity Fund - A Class

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	0.96% p.a.	And , for every \$50,000 you have in the GQG Partners Emerging Markets Equity Fund - A Class you will be charged or have deducted from your investment \$480 each year
Plus Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.08% p.a.	And , you will be charged or have deducted from your investment \$40 in transaction costs
Equals Cost of GQG Partners Emerging Markets Equity Fund - A Class		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$520* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$50,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqg.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqg.com.au/insto. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

GQG Partners Unit Registry

or sending it via email to

Who can invest?

Eligible persons (as detailed in the 'About this PDS' section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by the operator of the IDPS.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unit holder in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in a fund by the IDPS. The right to cool off in relation to a fund are not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in a fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in a fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to a fund and any rights an indirect investor may have in this regard.
