How FirstChoice Wholesale Investments works

When you invest in FirstChoice Wholesale Investments, your money is combined with other investors' money in a managed investment scheme. Each FirstChoice Wholesale investment option is a separate managed investment scheme.

What is a managed investment scheme?

A managed investment scheme (also called a managed fund) pools the money of many individual investors. This money is then professionally managed according to the fund's investment objective. By investing in a managed investment scheme and pooling your money with other investors, you can take advantage of investment opportunities that you may not be able to access as an individual investor.

We may invest directly or indirectly in other managed investment schemes managed by us to gain exposure and administrative efficiencies. For details of each option, refer to the FirstChoice Investment Options Menu and the Transacting on your account Reference Guide.

How your account works

When you make an investment into FirstChoice Wholesale Investments, you are issued units in the option(s) you select.

The unit price you receive is the unit price which applies on the day we receive a transaction request, provided the request is received before 3pm (Sydney time), on any NSW business day. The value of units, and therefore your account balance, can fluctuate on a daily basis depending on the value of the units which you hold in your account.

Minimums relating to your investment

Initial investment ¹	\$1,000
Account balance	\$1,000
Additional investment amount	No minimum
Regular investment plan ¹	\$100 per month
Switch	No minimum
Withdrawal amount ²	No minimum
Regular withdrawal plan	\$100 per month or quarter

1 We may accept amounts less than the minimum at our discretion.

2 Subject to minimum account balance requirements.

Receiving income

You may receive income in the form of distributions from your investment, such as interest, dividends and realised capital gains. For details of the tax implications, refer to the Transacting on your account Reference Guide.

Withdrawal of funds

You may withdraw from an option in accordance with our normal processes. When we receive your completed withdrawal request, together with any documentation that we may require to establish your identity, the proceeds are calculated at the next determined exit unit price. We reserve the right to delay a transaction where there may be a concern over its legitimacy or for the security of our investors. If a transaction is delayed, you will receive the unit price that applies on the day your request is processed.

Any decision whether to process withdrawals or partial withdrawals will be made in the best interests of investors as a whole. For more details on withdrawals, refer to the Transacting on your account Reference Guide.

Risks of investing

Understanding investment risk is the key to successfully developing your investment strategy. Before you consider your investment strategy, it is important to understand that:

- all investments are subject to risk
- there may be loss of principal, capital or earnings
- different strategies carry different levels of risk depending on the assets that make up the strategy
- assets with the highest long-term returns may also carry the highest level of short-term risk.

When considering your investment, it is important to understand that:

- the value of investment options will go up and down
- returns are not guaranteed
- you may lose money
- previous returns don't predict future performance
- laws affecting investments may change
- the appropriate level of risk for you will vary depending on your age, investment timeframe, where other parts of your money are invested and how comfortable you are with the possibility of losing some of your investment in some years.

Different investments perform differently over time. Investments that have provided higher returns over the longer term have also tended to produce a wider range of returns. These investments are generally described as more risky, as there is a higher chance of losing money, but they can also give you a better chance of achieving your long-term objectives.

Investments that have provided more stable returns are considered less risky, but they may not provide sufficient long-term returns for you to achieve your long-term goals. Selecting the investments that best match your investment needs and timeframe is crucial in managing this risk.

Your adviser can help you understand investment risk, including those risks applicable to complex options, and design an investment strategy that is right for you.

You should read the important information about risks before making a decision. Go to the FirstChoice Investment Options Menu at cfs.com.au for more information. The material relating to risks may change between the time you read this PDS and the day when you acquire the product.

Additional disclosure required for hedge funds and other complex options

Hedge funds and funds with certain hedge fund characteristics can pose more complex risks for investors than traditional managed investment schemes. This can arise due to their diverse investment strategies, in many cases involving the use of leverage and complex and offshore structures.

The Australian Securities and Investments Commission (ASIC) has identified some characteristics that distinguish hedge funds from other managed investment schemes in its Regulatory Guide 240, such as the use of leverage, derivatives and short selling, charging performance fees, or funds that have complex investment strategies or structures.

Where an option exhibits two or more of the characteristics defined, ASIC requires responsible entities to provide additional reporting and disclosure.

If an option is considered to be complex, this will be identified in the option's profile in the [FC Investment Options Menu](#).

For each option identified, we will report against the following benchmarks as required by ASIC:

- Valuation of assets: information about whether assets which are not exchange-traded are valued by an independent administrator or an independent valuation service provider, and
- Periodic reporting.

Where we can't provide all the components of the periodic reporting benchmark, we will explain why we can't and the types of information which will be provided instead so that you can monitor the investment performance of your option.

In addition, for each option identified, we will provide the Disclosure principles in the FirstChoice Complex Funds Reference Guide, available at cfs.com.au/complex. This information will be updated from time to time, in accordance with our legal obligations.

How managed investment schemes are taxed

General taxation information has been provided for you in this PDS. However, because the Australian taxation system is complex and different investors have different circumstances, you should consider seeking professional taxation advice before investing in the FirstChoice Wholesale investment funds (funds).

CFSIL is also not a registered tax (financial) adviser under the *Tax Agent Services Act 2009*, and you should seek tax advice from a registered tax agent or a registered tax (financial) adviser if you intend to rely on this information to satisfy the liabilities or obligations or claim entitlements that arise, or could arise, under a taxation law.

You may be required to pay tax in relation to your investment in a fund (generally income or capital gains tax). However, you may be able to claim some tax credits or receive the advantage of some tax concessions.

Some tax information has been provided for you below. However, although every care is taken, it is never possible to rule out the risk that on a subsequent review, taxation liabilities of each fund could increase, or the benefit of concessions reduce.

Because investors can move into and out of a fund at different points in time, there is a risk that taxation liabilities in respect of gains that have benefited past investors may have to be met by subsequent investors.

This tax information is current as at 23 May 2026 .

The levels and basis of tax may change in the future. We will send you all the information you need each year for you to complete your tax return.

Attribution Managed Investment Trusts (AMITs)

The managed funds which you can invest in through your FirstChoice Wholesale account are generally structured as Managed Investment Trusts (MIT).

Our eligible Managed Investment Trusts (MITs) have elected into a taxation regime called the Attribution Managed Investment Trust (AMIT) regime. A MIT that has elected into this regime is also referred to as an AMIT.

Under the AMIT regime, we will attribute income and tax offsets to you on a fair and reasonable basis. You will generally be assessed on this income and may be entitled to claim the tax offsets attributed to you.

The AMIT regime also provides you with the ability to adjust the cost base of your interest in the AMIT upwards or downwards where amounts attributed to you differ to the amounts that you have received as a cash distribution. This attribution information will be provided to you in an annual Tax Return Information Statement. This statement will detail member components of assessable income, capital gains, tax credits and other relevant information you should include in your tax return. If you are an indirect investor, your platform operator will provide you with this information.

For more information, refer to the 'Modifications to the constitutions – AMIT' flyer at cfs.com.au/managed-investment-trust

Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standards (CRS)

The Australian government has implemented the United States (US) Foreign Account Tax Compliance Act (FATCA) and the OECD Common Reporting Standards Automatic Exchange of Financial Account Information (CRS). The Australian Government has enacted legislation amending, among other things, the *Taxation Administration Act 1953* (Cth) to give effect to these regimes.

CFSIL as responsible entity intends to comply with these obligations by obtaining and reporting information on relevant accounts to the ATO. To do so, we will request that you provide certain information and certifications to us, and we will determine whether we are required to report your details to the ATO based on this information. The ATO may provide this information to the US and other countries that have implemented these regimes.

We are required by law to collect the required information and are not able to progress your application if you do not provide this information.

Will you be liable to pay tax on income attributed to you from a fund?

You may be liable to pay tax on the income attributed, depending on your total level of taxable income and your income tax rate. This is the case whether the money is actually paid to you or reinvested. Any tax you pay depends on what makes up the attributed income.

Some types of attributed income are as follows:

- income (such as dividends and interest)
- net capital gains (from the sale of the fund's investments)
- tax credits (such as franking credits attached to dividend income and credits for tax paid on foreign income).

Amounts attributed to you will be shown on your annual Tax Return Information Statement.

Will you be liable for tax when you switch or withdraw money from a fund?

You may, depending on your total level of taxable income and your income tax rate. Australian residents are generally subject to capital gains tax on gains when they switch or withdraw from a fund or transfer units to another person or entity. Depending on the type of taxpayer you are defined as and how long you have held your units, you may be entitled to a capital gains tax concession which can reduce the liability by up to 50% if you are an individual or trust, or 33.33% if the investment is held by a complying superannuation entity.

Quoting a Tax File Number (TFN) or an Australian Business Number (ABN)

Australian residents only

Under law (*Taxation Administration Act 1953* (Cth)) we can collect your TFN. You are not required by law to quote your TFN. However, without your TFN or appropriate exemption information, we are required to withhold tax at the highest marginal tax rate (plus Medicare and other applicable levies) on income attributed to you and interest payments made to you. We will only use your TFN for lawful purposes (which are subject to legislative changes).

Non-residents

Non-residents may be subject to withholding tax on attributed income. The exact amount cannot be determined in advance because it varies depending upon the type of income. Generally, for the options offered in this document (with the exception of the property securities options), non-residents will not be subject to Australian tax on capital gains arising at redemption. However, non-residents seeking to invest should obtain tax advice on their specific circumstances.

Withholding

We may be required to withhold an amount from any payment to you to meet our obligations under foreign or domestic law, including those imposed pursuant to sections 1471 to 1474 of the United States Internal Revenue Code 1986 (FATCA).

Other information you need to know

Role of your financial adviser

Your adviser may play a large role in implementing your financial plan and can assist you to meet your financial needs. We have therefore designed an online platform service to enable your adviser to monitor the progress of your portfolio and make transactions on your behalf if you nominate this.

Your adviser will automatically be given transaction authority unless you choose to opt out of this option by completing the 'Adviser Transaction Authority' section in the application form. Please note, this authority does not apply to Investment accounts with a margin loan.

By granting your adviser transaction authority, you authorise the named adviser, and their authorised delegates, access to the details of your account(s) to perform the following activities using our services on your behalf:

- make an additional investment, set up or modify a regular investment plan, switch investment options and nominate the investment option from which account based fees (including adviser service fees) will be deducted
- make certain modifications to the adviser service fees as agreed by you and your adviser
- cancel an adviser service fee
- modify personal and account details, excluding bank account details
- modify investment selection and frequency, including auto-rebalancing and elections in relation to the FirstChoice Managed Accounts Service
- withdraw an investment to your pre-nominated bank account.

For more information, refer to the Adviser Transaction Authority Conditions under Terms and conditions in the Transacting on your account Reference Guide.

When you authorise your adviser (and their delegates) to transact on your behalf, all transactions (including withdrawals) will be taken to be done by you, so you should carefully consider any consequences in providing this authorisation, review the terms and conditions of providing this authority and ensure this authority is consistent with what you wish your adviser to do on your behalf. Depending on your arrangements with your adviser, it is possible your adviser may provide an instruction to us without notice to you. If you do not wish your nominated adviser to have transaction authority for your account, you can revoke your authorisation by using the *Adviser nomination/Adviser transaction authority* form or by calling us.

If your circumstances change and this authority is no longer consistent with your needs, you have the ability to revoke your authorisation.

CFSIL can, at any time, remove an adviser or refuse to record or deal with an adviser nominated on your account.

As part of normal business practice, advice businesses may be sold, a new adviser may take over a book of clients, or an adviser may transfer from one dealer group to another. Where this occurs a new adviser may be nominated on your account or the dealer group attached to your account may change without your direction.

If there is a change of adviser nominated on your account, we will notify you so that you are aware of who has access to your account information and to whom any adviser services fees are being paid (if applicable).

Where your account is transferred to a new dealer group or adviser, they (and their delegates) will be authorised to access information regarding your account. If the adviser nominated on your account changes the adviser transaction authority you previously authorised will transfer to your new adviser.

Your annual statement will contain the details of the adviser nominated on your account.

You should read all parts of the PDS. You can contact Investor Services on 13 13 36 or email us at contactus@cfs.com.au if you would like a paper copy to be sent to you free of charge or for further information regarding FirstChoice Wholesale Investments. You should assess whether the product is appropriate for you and speak to your adviser before making a decision to invest in the product.

If you decide to invest in the product, you should always check that you are completing an application form from the most up-to-date version of the PDS.

By completing the application, you agree to the content of the PDS available at the date you first become an investor in FirstChoice Wholesale Investments. Thereafter, we will notify you of changes to the information in the PDS in accordance with our legal obligations.

Complete the application form and required forms

Complete and return the application form issued together with the current version of the PDS. Alternatively, you can complete the application online at cfs.com.au/join-now. Please refer to the application form checklist to help you determine which forms to complete.

Units in FirstChoice Wholesale Investments cannot be issued to you unless you use the application form (and complete all steps detailed in the checklist) attached to or accompanied by either a paper or an electronic copy of the PDS.

If we cannot issue the product immediately, after receiving your application form and application monies (for whatever reason), these monies will be deposited in a trust account. Any interest on these monies will be retained by us.

Eligibility of foreign investors

The offer made in this PDS:

- does not constitute an offer in any other country or jurisdiction including the European Union
- cannot be offered or sold within the US, or sold to, or for the account or benefit of, 'US Persons' (as defined in Regulation S of the *US Securities Act 1933*) in the United States
- cannot be offered or sold to European Union citizens residing in the European Union
- is not available to a Sovereign entity, or part of a Sovereign entity group, or a superannuation fund

for foreign residents, as defined in the *Income Tax Assessment Act 1997* (Cth).

Is there a cooling-off period?

A 14-day 'cooling-off period' will apply to your initial investment in the funds in certain circumstances. If, during the 14-day cooling-off period, you decide that the investment does not meet your needs, then you or, if you have one, an adviser can advise us in writing.

The 14 days start when you receive your transaction confirmation or five days after your units are issued, whichever is earlier.

We will refund your investment, reduced or increased for market movements (and, where relevant, once we have established your identity). We will also deduct any tax or duty incurred and an amount for reasonable transaction and administration costs we incur in relation to your investment in a fund, including determining your application.

As a result, the amount returned to you may be less than your original investment.

Note: The cooling-off period will lapse if you transact in relation to the fund within 14 days. Refer to the FirstChoice Transacting on your account Reference Guide, available at cfs.com.au/fcwinv

Anti-Money Laundering and Counter-Terrorism Financing laws and Sanctions laws

We're required to comply with the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (Cth).

- instructions for completing the identification process are included with the application forms. If you have an adviser, it is part of your adviser's 'Know Your Customer' (KYC) responsibility at the time of completing your application.

We're also obliged under this legislation to report certain information about investors to relevant regulatory and/or law enforcement agencies (including but not limited to the Australian Transaction Reports and Analysis Centre, AUSTRAC, the Australian Financial Complaints Authority, and the Australian Taxation Office) and we may be prevented by this legislation from telling you. Where legally permitted or obliged to do so, we may also disclose information gathered to our related bodies, or to other third parties.

We may be unable to transact with you or other persons (both an initial or ongoing service) in certain circumstances; this may include actions such as delaying, blocking, freezing or refusing to process a transaction, or ceasing to provide you with a product or service, if we have reasonable grounds to believe or suspect potential breaches of Australian and/or international laws or sanctions.

You acknowledge and agree that we will not be liable to you for any loss of income and principal invested, if we're required to take one or more of these actions.

We may be required to disclose customer information by law. For example, under Court Orders or Statutory Notices pursuant to taxation or social security laws or under laws relating to sanctions, money laundering or terrorism financing, or as required to comply with our obligations to foreign or domestic regulators and other government authorities.

We may send customer information overseas if:

- it's necessary to complete a transaction
- we outsource certain functions overseas
- we're required to under domestic or foreign law.

Please refer to our Privacy Policy at cfs.com.au/privacy for more information.

Investing indirectly in FirstChoice Wholesale Investments funds

When you invest via a separate platform product (such as a mastertrust, investor directed portfolio service or wrap account), you are investing indirectly in the option. You do not become a unitholder of the option; instead the platform operator becomes the unitholder. Certain features outlined in this PDS such as Portfolio Rebates, regular transacting and auto-rebalancing are generally not accessible to indirect investors in the options. Rather than receiving reports or other documentation relating to the option directly from CFS, these will be provided to you by your platform operator. Matters relating to your investment in the option (including how to invest, cooling off rights and complaints etc.) should be directed to your platform operator. CFS accepts no responsibility for the content of an external platform operator's disclosure.
