2. How the First Sentier Cash Fund works

The Fund is structured as a unit trust that is a managed investment scheme under the Corporations Act and is registered with ASIC. When you invest in the Fund, you will be allocated a certain number of units and your money will be pooled together with other unitholders' money. This pool of money will be used to acquire investments that will be managed on behalf of all unitholders. Unitholders do not have day to day control over the operation of the Fund.

The Constitution allows the Responsible Entity to issue different classes of units. Different classes of units generally represent different levels of rights and interests. Currently, there is only one class of units on issue in the Fund.

Direct investors

You can invest in the Fund directly by completing an initial application form along with the necessary identification documents. For certain investor types, an online application process is also available at www.firstsentierinvestors.com.au. Please see section 8 'How to apply' in this PDS for more information.

Indirect investors

The Responsible Entity authorises the use of this PDS for investors who wish to access the Fund indirectly through a Service. An investment in the Fund through a Service does not entitle you to a direct interest in the Fund and you may be subject to different terms and conditions from those referred to in this PDS. When you invest via a Service, you are investing indirectly in the Fund and as such you do not become a unitholder in the Fund. The Service Operator is the unitholder and the term 'unitholder' as used in this PDS refers to those entities. Some information in this PDS may be relevant only for direct investors. If you invest via a Service you will not receive reports or other documentation from the Responsible Entity or the Investment Manager in respect of the Fund. Instead, these will be provided to you by your Service Operator, who is the unitholder in the Fund. This includes information in relation to applications/withdrawals, cooling-off periods, processing times, distributions, fees and expenses and taxation. You should contact the Service Operator for details on how to invest in or request a withdrawal from the Fund.

Units in the Fund

Generally, the unit price is calculated each Business Day for the preceding Business Day. The unit price is calculated by taking the total market value of the assets of the Fund less the total value of the liabilities of the Fund (including any adjustments for transaction costs), divided by the total number of units on issue at the relevant valuation time.

The Responsible Entity determines the unit price of the Fund based on the most recent valuation of assets, property and liabilities (which are determined at regular intervals appropriate to the nature of such assets, property and liabilities). The Fund's unit price will change as the market value of assets in the Fund rises or falls. There may be a difference between the entry and exit unit price for the Fund quoted on any Business Day which is referred to as the buy/sell spread. The buy/sell spread is applied to ensure that other unitholders aren't impacted by the transaction costs associated with a particular

unitholder buying or selling units in the Fund.¹

Unit prices will be available at www.firstsentierinvestors.com.au. The Responsible Entity has a documented unit pricing policy (**Unit Pricing and Valuation Policy**) in relation to the guidelines and relevant factors taken into account when calculating unit prices, including all transaction costs and buy/sell spread. You can obtain a copy of the Unit Pricing and Valuation Policy, and records of any exercise of such discretions under the Unit Pricing and Valuation Policy, free of charge, by contacting the Responsible Entity or the Investment Manager.

Minimum investment amount

The minimum initial investment for direct investors is \$20,000.² No minimum additional investment requirement applies. Indirect investors should refer to their Service Operator's disclosure documents for minimum investment requirements.

Minimum account balance

The minimum account balance is \$20,000. The Responsible Entity reserves the right to waive this requirement and allow for balances below \$20,000.

Withdrawals

You may request to withdraw some or all of your units from the Fund by submitting a withdrawal form, which is available from the Registry on request (by contacting Investor Services) and should be sent to the Registry for processing.

No minimum withdrawal amount applies. Should the withdrawal bring your account balance below \$20,000, the Responsible Entity reserves the right to facilitate a full withdrawal of your investment. While the Fund is liquid, withdrawals will usually be paid to your nominated bank account within 7 Business Days. However, the Constitution allows the Responsible Entity up to 21 days to pay withdrawal requests after the next valuation time following receipt of the withdrawal request (**Withdrawal Date**).

If withdrawals are suspended or restricted, withdrawal requests may not be processed within the usual period. Any decisions whether to process withdrawals or partial withdrawals will be made in the best interests of unitholders as a whole, and in accordance with the Constitution and Corporations Act. Please refer to the 'Suspensions' section of the AIB for details regarding when the Responsible Entity can suspend withdrawals.

In certain circumstances set out in the Constitution, the Responsible Entity may compulsorily withdraw your units without a withdrawal request.

Processing applications and withdrawals

Units are generally issued after the application has been accepted and the application money has been received by the Registry on behalf of the Responsible Entity. The cut-off time for receipt of applications and withdrawal requests by the Registry is 12pm on any Business Day and for applications, cleared funds should be received by the close of business on the same Business Day. Units will be issued for that Business Day, using the unit price next calculated after 12pm for the applicable Business Day. Requests received after the cut-off time of 12pm on a Business Day will generally be treated as having been received before the cut-off time on the next Business Day.

The Responsible Entity can accept or reject any application for units at its discretion and is not required to give any reason or grounds for such a refusal.

Distributions

The Fund intends to pay distributions monthly. The distributions are calculated based on the Fund's distributable income at the end of the distribution period and paid to the unitholders in proportion to their unitholding. Unitholders can elect to have distributions paid into their nominated Australian bank account or have it reinvested in units. There is no buy/sell spread applied to the reinvestment of distributions. The issue of units in respect of a reinvested distribution will be at a unit price excluding the most recent distribution as at the last day of the calendar month of the distribution period.

3. Benefits of investing in the First Sentier Cash Fund

Significant features

The Fund seeks investment in a portfolio of Australian short-term money market securities which the Fund may access directly or indirectly. The Fund is actively managed and invests in assets that the Investment Manager believes offer the best value-for-risk by taking into account economic analysis and market trends.

Significant benefits

Investing in the Fund offers investors access to:

- the Investment Manager's investment expertise;
- Australia's largest cash investment manager;³
- investment professionals that have extensive experience in managing risk and portfolios against various benchmarks; and
- a professionally managed portfolio of Australian cash and money market securities with predominantly short maturities which aim to maintain capital stability while providing regular income.

1. Refer to section 6 'Fees and other costs' for the Fund's buy/sell spread.

2. We may accept amounts less than the minimum at our discretion if we are satisfied the applicant otherwise qualifies to invest with us.

3. As measured by the total funds under management of all Australian funds and mandates with a cash investment strategy managed by the Investment Manager. Rainmaker Information, *Institutional Roundup*, 31 March 2025, Table 30: Cash investment managers.

4. Risks of managed investment schemes

All investments are subject to risk. There may be loss of principal, capital or earnings and different strategies carry different levels of risk depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk generally due to their large fluctuations in returns. Selecting the investments that best match your investment needs and timeframe is crucial in managing this risk.

When considering your investment decision, it is important that you understand the risks that can affect the value of your investment. The value of your investment will vary. The level of returns will vary and future returns may differ from past returns. Returns are not guaranteed. You may receive back less than your original investment when you withdraw from the Fund or you may not receive income from the Fund during a specific period. There is also a risk that laws affecting managed investment schemes may change in the future. The appropriate level of risk for you will vary, depending on a range of factors, including your age, investment timeframes, other investments and risk tolerance levels. Your financial adviser can help you determine whether the Fund is an appropriate investment based on the above factors. The Responsible Entity has set out below a list of significant risks that may affect your investment in the Fund. It is not always possible to completely eliminate these risks, however it is possible to manage their impact on the Fund through prudent monitoring of the factors giving rise to these risks.

These risks are not exhaustive and there could be other risks that may adversely affect the Fund. See the AIB for additional risks.

Company risk - An investment in equities or corporate bonds (if applicable) is exposed to risks due to changes in that company or its business environment. Changes to operations and/or management, legal proceedings involving the company, and profit and loss announcements may affect the value of the Fund's security/bond holdings and subsequently the value of the Fund.

Counterparty risk - Risk that counterparties, such as brokers, fail to meet their contractual obligations which may result in the investment activities of the Fund being adversely affected.

Credit risk - Risk of an issuing entity defaulting on its obligation to pay interest and principal in full and/or on time which may adversely affect the returns of the Fund.

Derivatives risk - Derivatives are contracts that usually derive their value by reference to the price of an underlying physical asset or market index. Risks associated with the use of derivatives include that the value of a derivative may fall as a result of an adverse movement in the underlying asset or index, the Fund not being able to meet payment obligations as they arise and the risk that the other party with whom the derivative contract is held will fail to perform its contractual obligations.

ESG risk - The realisation of any applicable environmental, social and governance (ESG) related commitments and targets (if any) that are incorporated into the investment process of the Fund is dependent on the accuracy of information provided by portfolio entities and their future actions (for which the relevant portfolio entity is responsible and accountable), and which is subject to change or may otherwise be inaccurate. Accordingly, there is a risk that portfolio entities do not achieve their stated ESG objectives which in turn may affect the realisation of any applicable ESG-related commitments and targets that are incorporated in the investment process of the Fund (if any).

Interest rate risk - Risk that the investment value or future returns of an asset of the Fund may be adversely impacted either directly or indirectly by changes in interest rates.

Market risk - Investment returns are influenced by the performance of the markets as a whole. Certain events may have a negative effect on the price of all types of investments within a particular market. These events may include changes in economic, social, technological or political conditions, as well as market sentiment, the causes of which may include changes in governments or government policies, political unrest, wars, terrorism, pandemics and natural, nuclear and environmental disasters. The duration and potential impacts of such events can be highly unpredictable, which may give rise to increased and/or prolonged market volatility.

Securities and investment-specific risk - Within each asset class and the Fund, individual securities can be affected by risks that are specific to that investment or that security. For example, the value of a company's shares can be influenced by changes in company management, its business environment or profitability.

You should read the important information about the 'Risks of managed investment schemes' in the AIB before making a decision. Go to www.firstsentierinvestors.com.au/additional-information-booklet for a copy of the AIB. The material relating to the 'Risks of managed investment schemes' may change between the time when you read this Statement and the day when you acquire the product.

5. How we invest your money

Changes to Fund details	The Responsible Entity may close, terminate the Fund or make changes to the Fund's investment objectives, benchmark, asset classes and allocation ranges at any time, in some cases, without prior notice. The Responsible Entity will inform unitholders of any material changes to the Fund.	

1. You may receive back less than your original investment when you withdraw from the Fund or you may not receive income from the Fund during a specific period. 2. The investment objective is not intended to be a forecast. It is merely an indication of what the Fund aims to achieve over the longer term on the assumption that markets remain relatively stable throughout the investment term. The Fund may not be successful in meeting this objective. Returns are not guaranteed. 3. The asset allocation is a range. Actual allocations can change within the ranges significantly and sometimes quickly. 4. Based on Australian Prudential Regulation Authority guidance and Standard Risk Measure Guidance Paper For Trustees issued July 2011 by the Financial Services Council and The Association of Superannuation Funds of Australia. 5. The risk level is not a complete assessment of all forms of investment risks, for instance it does not detail what the size of a negative return could be or the potential for a positive return to be less than the return an investor may require to meet their objectives.

You should read the important information about 'How we invest your money' and 'The Fund's approach to ESG' in the AIB before making a decision. Go to www.firstsentierinvestors.com.au/additional-information-booklet for a copy of the AIB. The material relating to 'How we invest your money' and 'The Fund's approach to ESG' may change between the time when you read this Statement and the day when you acquire the product.

6. Fees and other costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. The information in the fees and costs summary table can be used to compare costs between different simple managed investment schemes. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole. Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment. Unless otherwise stated, all fees and costs are quoted inclusive of goods and services tax (**GST**) and net of any input tax credits (**ITCs**) or reduced input tax credits (**RITCs**) as applicable.

Warning: Additional fees may be charged if you're investing in the Fund via a Service or if you consult a financial adviser. Please refer to your Service Operator's disclosure document or statement of advice from your financial adviser in which details of the fees are set out.

Example of annual fees and costs for the Fund

This table gives an example of how the ongoing annual fees and costs in the Fund can affect your investment over a 1-year period. You should use this table to compare this Fund with other products offered by managed investment schemes.

EXAMPLE - First Sentier Cash Fund		Balance of \$50,000 with a contribution of \$5,000 during the year ¹
Contribution fees	NIL	For every additional \$5,000 you put in, you will be charged \$0
PLUS Management fees and costs	0.20% p.a.	And , for every \$50,000 you have in the Fund, you will be charged or have deducted from your investment \$100.00 each year
PLUS Performance fees	NIL	And , you will be charged or have deducted from your investment \$0 in performance fees each year

What it costs you will depend on the investment option you choose and the fees you negotiate. ²

1. The example above is illustrative only and assumes the additional \$5,000 is invested at the end of the year and the value of the investment is constant over the year. Therefore, the management fees and costs are calculated using the \$50,000 balance only. Additional fees may be charged if you're investing in the Fund via a Service or if you consult a financial adviser. The buy spread charged on the additional \$5,000 is not included in the example above. 2. The Responsible Entity may negotiate rebates or waive all or part of its fees for certain wholesale clients in accordance with the Corporations Act. Please refer to 'Negotiable fees' in section 4 'Additional explanation of fees and costs' in the AIB.

Fee changes

The Responsible Entity has the right to change its fees up to the limit set out in the Constitution⁴ without your consent where the Responsible Entity has given you or your Service Operator at least 30 days' written notice.

You should read the important information about 'Additional explanation of fees and costs' in the AIB before making a decision. Go to www.firstsentierinvestors.com.au/additional-information-booklet for a copy of the AIB. The material relating to 'Additional explanation of fees and costs' may change between the time when you read this Statement and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme is likely to have tax consequences for unitholders each year, even if unitholders don't change their investment. Tax consequences are particular to each individual unitholder and unitholders are strongly advised to seek professional tax advice before investing in the Fund.

Registered managed investment schemes generally do not pay tax on behalf of Australian unitholders and such unitholders will be assessed for tax on any taxable income or capital gains attributed to them in respect of their investment in the Fund.

This PDS does not provide taxation advice.

We intend to attribute all of the taxable income of the Fund, including realised net capital gains and tax credits (if any), to unitholders each year. Generally, each financial year you are liable to pay tax on any capital gains from disposing of your investments and on any taxable amounts attributed by the Fund (even if the distributions are reinvested), although you may be entitled to tax credits where income has already had tax deducted.

You should read the important information about 'How managed investment schemes are taxed' in the AIB before making a decision. Go to www.firstsentierinvestors.com.au/additional-information-booklet for a copy of the AIB. The material relating to 'How managed investment schemes are taxed' may change between the time when you read this Statement and the day when you acquire the product.

⁴ The maximum management fee is outlined in section 4 'Additional explanation of fees and costs' in the AIB.

Cooling-off period

If you are a retail investor, you are entitled to a 14 day cooling-off period for your initial investment in the Fund. No cooling-off rights apply in respect of any investment in the Fund acquired by you as a wholesale client or by your Service Operator on your behalf. If you are an indirect investor you should contact your Service Operator directly or refer to their disclosure document for information about any cooling-off rights that may apply to you in respect of the service that you invest through.

You should read the important information about the 'Cooling-off period' in the AIB before making a decision. Go to www.firstsentierinvestors.com.au/additional-information-booklet for a copy of the AIB. The material relating to the 'Cooling-off period' may change between the time when you read this Statement and the day when you acquire the product.

Enquiries and complaints

If you have any enquiries regarding the Fund, please contact Investor Services at 1300 553 490 for more information.

The Responsible Entity has established procedures for dealing with complaints. If an investor has a complaint, they can contact the Responsible Entity and/or Investor Services during business hours, using the contact details provided in this PDS. We will endeavour to resolve your complaint fairly and as quickly as we can. We will respond to your complaint within the maximum response timeframe of 30 days. If we are unable to respond within the maximum response time because we have not had a reasonable opportunity to do so, we will write to you to let you know of the delay.

All investors (regardless of whether you hold units in the Fund directly or hold units indirectly via a Service Operator) can access the Responsible Entity's complaints procedures outlined above. If investing via a Service Operator and your complaint concerns the operation of the Service Operator then you should contact the Service Operator directly. If an investor is not satisfied with the final complaint outcome proposed, any aspect of the complaints handling process or a delay in responding by the maximum response time, the Australian Financial Complaints Authority (**AFCA**) may be able to assist if you are an eligible investor. AFCA operates the external complaints resolution scheme of which the Responsible Entity is a member. If you seek assistance from AFCA, their services are provided at no cost to you.

You can contact AFCA on 1800 931 678, or by writing to:
